** Evidence that the applicant is the legal representative of the inventor(s) must be submitted within one year of the filing date or the national entry date. A specific Canadian assignment is acceptable, as is a copy of a US assignment, if it includes foreign rights and was executed before a witness or a notary public. Preferably, you should include a copy of the USPTO Notice of Recordation if using a copy of the US assignment for Canada. If the applicant for Canada in a PCT national entry is **not** the PCT applicant then documentation evidencing a chain of title is required.*
